Hello,

I am a site owner investor of the Income Store. I wanted to express my objection to the motion that employees and other contractors may receive claims on a case-by-case basis. Given the nature of this ponzi scheme and the large amount of people it took to perpetuate this for as long as it did, I believe most, if not all employees were either complicit in the ponzi scheme or grossly negligent. From the day I began my investment, I received promises regarding the development and purchase of my websites which were repeatedly broken. I received the run around from every employee I encountered from top to bottom. As a result, my websites are useless and I stand to lose a significant amount of money. I don't believe the claim pool designated to pay back investors who lost money (whatever that may be) should be diluted to pay back contractors and employees who helped perpetrate this crime.

Thank you for your consideration.
